

Finance

Cloud-based financial
management for schools

Finance at the heart of your school.

Bromcom Finance let's you accurately assess where your budget is spent; control your financials and forecast for the future from one centralised portal.

Manage your school with one login.

Bromcom Finance is embedded within our MIS, so there's no need to jump between programs or waste time re-entering data. Efficiently fulfil multiple school roles, from HR and Finance Officer to School Business Manager, all through one comprehensive platform.

Empower budget holders.

Provide ownership to those in charge of how your money is spent. Approve spending, delegate duties and restrict channels to ensure accountability throughout your community.

Access anywhere, anytime.

Command school or trust budgets from your desk or home office, with our cloud-based solution. Be safe in the knowledge that your finances are protected and only seen by those with relevant permissions.

Time well spent.

Manage your time more effectively with Bromcom Finance and experience a system which takes care of the hard work for you.

Reduce repetitive tasks.

Create templates to quickly process commonly used invoices. Speed up the process of adding orders with our cloning tool meaning labour intensive data entry is now a thing of the past.

Automatic Renewals.

Our system provides the ultimate in transparency when it comes to renewals. Auto-generated notifications provide opportunity to seek new suppliers at cheaper prices. Reactivity can now become proactivity, saving you thousands in the process.

Hassle free Returns.

Complete full period and year end closure processes including CFR & ESFA returns with consummate ease. Likewise, contractual information and payroll can be utilised in Bromcom's MIS. School workforce census just became a whole lot easier.

What I like about Bromcom Finance module is that it is constantly improving! Bromcom have supported a local network of product users and are open to feedback, using this in their aim to continually make improvements both to functionality and user interface. We feel as though we have a great working relationship with them alongside having a great product.

Wendy Whistler

Business Manager - Swavesey Primary School

Know where every penny is spent.

Drill down capabilities.

Analyse payments from your top level ledgers right down to specific journals. Click through functionality provides you with the full picture on all order details and their associated documents. Better understand where your money is being spent with interactivity at every step.

Save money, save time, save the environment.

Bromcom eradicates the need for a physical paper trail with paper invoices becoming digital receipts, easily downloaded and transferred to relevant stakeholders.

Single click exports.

Export any table or data source with just one click of a button. Extract the data which matters to you and assess in moments.

Reporting.

Allow stakeholders visibility over where your budget is being spent with the ability to automatically email or schedule reports. Additionally, create bespoke reports to suit your school or trust's targets/projections. Don't settle for an off the shelf solution!

Future proof planning.

Base pay mapping functionality feeds into staffing projections. calculate percentages and costing for UPS, main scale and leadership, while also keeping an eye on future staffing needs. If this wasn't enough, apportionment and salary calculators give you financial overview of your most valuable assets.

Proactive savings.

Create customers, invoices and receive/pay in funds, all from within Bromcom's MIS. Existing data harnessed to form financial profiles which can be saved and reused whenever necessary.

Control your assets.

Have the freedom to add existing asset registers and create new items from invoices. Bromcom finances also provides the capability to take accurate stock takes and inspection records. Save your financial data in a way that suits you.

It's just so easy to use as soon as you pick it up. You don't have to navigate between different screens and login to different systems, it's just there, in one place. The finance page in particular is just brilliant both in terms of information and aesthetics. In school you always need information quickly and Bromcom permits this. You can dip in, get what you need and dip out again.

Moving over to Bromcom was the best thing our school ever did. It was a lot to take in at the time but the support from the Bromcom team was exceptional and having a dedicated person from the Finance team made it so easy for us. The school team are really getting to grips with it and we now don't have so many other staff disturbing the school office, as information they need is on the system for them to access.

Lisa Bain

School Business Manager - Hamilton Primary School

Working with Bromcom.

Bromcom know what it is to create school centred systems. With over 35 years experience in the education sphere, we continue to push the boundaries of cloud-based functionality to bring a product which is tailor made for your community.

Our collaboration is what sets us apart. We work with our partners up and down the country, listening feedback and developing our product with them in mind.

Book a demo and begin your journey.
