The most fully featured MIS on the market.

We've worked with the education community for nearly 40 years to create a product which is designed to support everyone. Bromcom consolidates all your data and functionality into a single solution so you can say goodbye to your costly bolt-ons and streamline your processes.

We offer a range of packages – including our ever-popular One-Stop Shop package – so you can get the right capabilities for your establishment.

Anywhere. Anytime. Any device.

Access where you need it. Whether you're at your desk, in the classroom, on the playground, or at home, we've got you covered. We're cloud-based, so there's no servers to manage or upgrades to install, giving you peace of mind to focus on what matters.

Bromcom has truly transformed our school experience. It's the perfect all-in-one solution for staying connected and informed about our child's education. We love how user-friendly Bromcom is.

Kay Coperstake
IT Technician - Quarrydale Academy

It's more than an admin tool.

From students and families to staff and stakeholders, we provide all the data and tools you require under one umbrella to engage, inspire, and improve outcomes.

School leaders

Intuitive live data dashboards allow for summary, analysis, and oversight of school data, including Attendance, KS2, KS4, Behaviour, Safeguarding, and more.

Business managers

Reduce workload with automated tasks and processes to optimise operations.

Parents & guardians

Parents are automatically notified of issues and have visibility of their child's progress. Book trips, clubs, and wraparound care, and pay for products online.

Timetablers

Create timetables automatically with our fully integrated web-timetabling solution, Cloud wTimeTable.

Teachers

Our Teacher Dashboard provides Teachers with a hub of the functionality they need at their fingertips.

Finance & budgeting

Plan for the future, manage assets, and allocate resources with integrated Finance functionality.

Students

Students can own their progress with visibility of their school performance, as well as access timetables, submit homework, and view class resources.

Using Bromcom is the easy bit.

Data is nothing without the ability to access it. Bromcom's interface combines intuitive dashboards with logical pathways to create a user-friendly experience. Obtain all the information you need in just a few clicks.

AI Support

Get instant insight from school data with Bromcom AI.

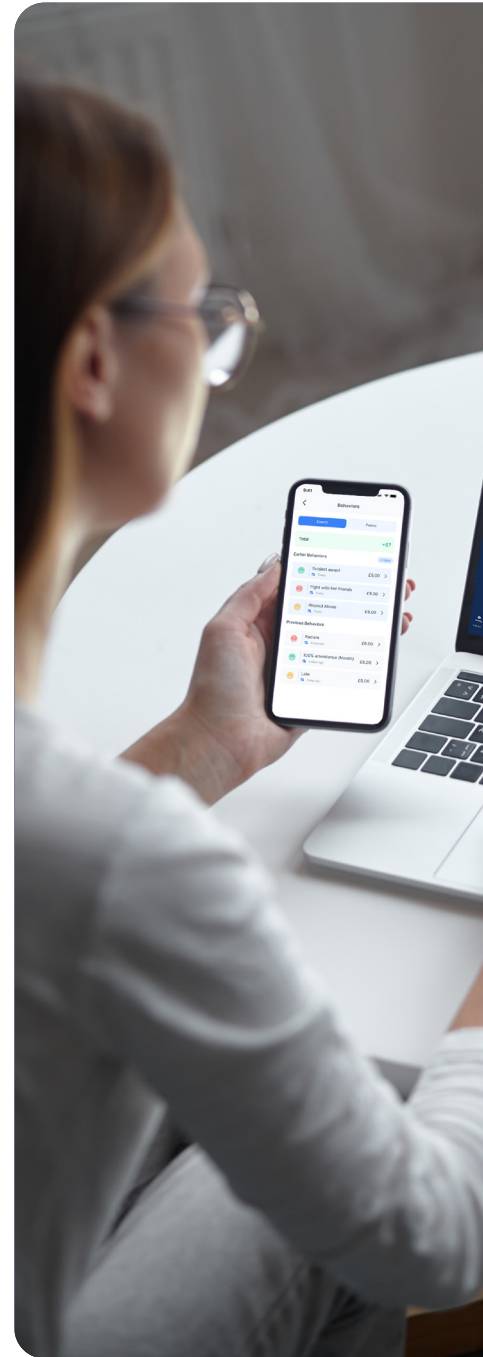

Quick Reports

Export data from virtually any source with a single click.

Walk-through help tool

Instant direction or user guides for tasks that elude you.

Hit the ground running.

Not only is Bromcom easy to use, it's easy to get to grips with. With minimal training required, you can move away from outdated and time-consuming systems in a matter of weeks.

Don't just take our word for it, our users say the same...

“
Bromcom has revolutionized our school's operations. With all our data centralized in one place, we have experienced a significant boost in efficiency and productivity.”

Danny Park
ICT Manager
Hebburn Comprehensive School

Capacity to lead.

All of your data is seamlessly combined to give you a holistic view of how your school can progress as one. Effectively manage, develop, and retain staff, handling day-to-day responsibilities while keeping an eye on the bigger picture.

Analysis for improvement can be conducted across the board. Be it governors, office staff, or classroom teachers, you can lead from the front knowing you have all the information in your arsenal to provide the best experience for pupils.

Performance Management

The Performance Management page provides focus on individual and collective targets to improve school performance.

Complete overview

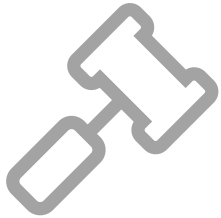

Bromcom provides a single point of reference so you can have an even better understanding of your students, staff, and their needs.

CPD

A designated CPD portal gives all staff the opportunity to excel.

Governance.

Provide appropriate visibility for your important stakeholders. Share headline figures on the school's performance and areas of development to allow your governors to make informed decisions.

Strategic objectives.

Objectives in line with your ethos. Align individual targets with desired school outcomes and pull together as one. All of this information is contained within one centralised database to help keep your school on track.

Capacity to act.

Decipher your data. Analyse, assess, and implement strategies with Bromcom's accessible dashboards. Proactivity has never been easier with the ability to visualise patterns and follow best practice in seconds, not hours. Spend your time making a difference and not bogged down in incomprehensible statistics.

Helpful analytics

Dashboards help the end user to visualise and inspect information spanning attendance, behaviour, assessment, and more. Headline figures are just as accessible as a forensic drill-down.

Identify trends

Proactive not reactive. Respond to visual indicators and identify areas which need intervention.

Benchmark data

Compare statistics with other schools, classes, or individuals. Assess against previous performance to guide future learning.

Automated alerts

Be notified of issues as and when they happen. Quell complications before they have a chance to arise.

Support for the entire School.

Wraparound care

Set up a full array of wraparound care and allow parents to book and pay for places online. Take registers for each session and analyse their impact across the board.

Online Payments

Capacity to evolve.

Evolution is part of a school's fabric. Investing in both your team and school processes is crucial for maintenance, development, and growth.

Bromcom provides the scope for schools to innovate, be that through flexible assessment, excellent engagement tools, or automated behaviour actions. Reduce your admin workload and make your time count.

Not every school is necessarily the same, so we set it up how we want it to work for our school.

Debbie Williams

Data, Exams & Assessment Manager
Hampton Academies Trust

Build your community.

With our parent portal and app available, parents will be more engaged than ever by keeping them included in their child's educational journey to ensure that learning doesn't stop when they leave the school gates.

Not just any school. For **your** school.

Your MIS needs to work for you. With bespoke training, configurable dashboards, and a dedicated customer service team, we understand your needs and adapt our product to suit you. Don't just settle for an off-the-shelf solution!

Switching to Bromcom.

Discovery

We'll work out where you are now, what you want to achieve from the switch, and how we can get you from A to B.

Migration

We'll audit your data and check if anything that, it's all systems go with our deployment migration can be performed in a matter of

Migrating from SIMS to Bromcom.

We can either extract the data with SQL backups of a school's database, or you can use our data migration tool specifically created for schools with their SIMS hosted by ESS who do not have possession of their SQL backup: Migration-X.

Migration-X is based on ESS SIMS' Report Generator and accompanying APIs and does not use SIMS SQL backups. Schools can also upload a copy of their database to our self-service portal. To learn more about migrating from SIMS, get in touch with our team.

Transition

Sup

The online training was intuitive, and their customer support is top-notch, providing quick and effective solutions. Our journey with Bromcom has been exceptional, earning them a resounding 10 out of 10!

Lynn Sanderson

Business Manager - Captain Webb Primary School

ing needs cleansing. After
ment team, and your data
r of hours.

Start training on a copy of your own data and get everyone up to speed. Our customer success managers are on hand to ensure that everything is lined up according to your needs.

pport

Receive ongoing support from a dedicated helpdesk then join our user groups and specialist communities to learn from like-minded peers.

Choose the package that's right for you.

With our modular approach and flexible packages, you don't have to pay for functionality you don't need.
