

# Bromcom Live Benchmarking.

# What is Bromcom Live Benchmarking.

Standard benchmarking for important areas such as Attendance and KS2/4 Performance are generally provided in Bromcom using the latest national data where available. Bromcom has introduced its own version of benchmarking which works on a simple process of schools giving consent for us to periodically upload their data in anonymised format. This provides a set of data which is as up to date as it can be, either termly or weekly according to the respective dashboard selected.

For example, with Attendance the existing Bromcom dashboard allows a school to review its data in a weekly timeline. Bromcom can now populate this data with an added comparison based on a range of subsets derived from Bromcom's consenting schools: National, Regional, Local Authority and finally Intake type, which allows Comprehensives, Religious Schools etcetera to be compared as a subset for comparison.

**Automatically available once school consent is granted**

**Simple to compare data against selected benchmark**

**Instant results with no need to transfer data**

**Built-in additional benchmarking – no need to wait for national data for analysis**

**All key performance indicators available relating to the school's region, local authority and intake type**

**Instant comparison of contextual cohort performance across all key measures**

## Features & Benefits

Feature	What it does	Benefits
<b>Live Benchmarking Consent</b>	Allows school use Bromcom live benchmarking and adds the school data anonymously to the dataset	<ul style="list-style-type: none"> <li>School has additional comparisons</li> <li>Enables full range of comparisons</li> </ul>
<b>Attendance Benchmarking</b>	Selecting benchmarking provides all data comparisons for both national and Bromcom schools' data <ul style="list-style-type: none"> <li>National</li> <li>Regional</li> <li>Local Authority</li> <li>Intake Type</li> </ul>	Bromcom schools can compare themselves against similar Bromcom schools Bromcom updates all data every weekend for up-to-date comparison Filtering options by cohort also available for attendance
<b>KS2 Performance</b>	KS2 Stage Assessments are generated automatically on the KS2 dashboard for schools completing Bromcom's Stage Assessment marksheets	<ul style="list-style-type: none"> <li>All key measures are updated as a comparison</li> <li>Instant comparison against similar schools</li> <li>Data is static and provided by Bromcom so no work required by primary leads</li> </ul>
<b>KS2 Assessment</b>	Plans are under review to introduce benchmarking options for those primaries using primary tracker	Will offer same instant updates but collected according to 3 term process for analysis
<b>KS4 Performance</b>	Plans are under review to introduce benchmarking options for Summer exam results	<ul style="list-style-type: none"> <li>All key measures are updated as a comparison</li> <li>Instant comparison against similar schools</li> <li>Data is static and provided by Bromcom so no work required by school</li> </ul>
<b>KS4 Assessment</b>	Plans are under review to introduce benchmarking options for those schools using KS4 dashboard for assessment	Will offer same instant updates but collected according to 3 term process for analysis
